FOR THE PURPOSE OF CONSIDERING THE FOLLOWING:

CASE NO. 14-13 (Office of Planning – Text Amendments to Chapters 1, 4, 5, 6, 7, 8, 9, 12, 15, 19, 26, 27, 29, and 33: Definitions, Use Permissions, and Size Restrictions for Rooftop Penthouses)

THIS CASE IS OF INTEREST TO ALL ANCS

On July 24, 2014, the Office of Zoning received a report that served as a petition from the District of Columbia Office of Planning (OP) proposing several text amendments to the Zoning Regulations (11 DCMR), related to use permissions and size restrictions for rooftop penthouses. The Act to Regulate the Height of Buildings in the District of Columbia of 1910 (the Height Act) was recently amended to permit the occupancy of rooftop penthouses of one story and 20 feet or less. Because the current Zoning Regulations pertaining to penthouses are in some instances more stringent than what the amendment would permit, the changes to the Height Act cannot be given effect until corresponding changes to the Zoning Regulations are also adopted.

The Office of Zoning received a supplemental report from OP on September 2, 2014. At a special public meeting on September 4, 2014, the Zoning Commission set down this case for a public hearing, including alternative concepts offered by the Zoning Commission. The public hearing was held November 6, 2014.

Subsequently, the Zoning Commission requested OP to prepare a report of additional alternatives for the regulation of penthouses, based on public and Commission comments, for consideration at a public meeting on February 23, 2015; this was provided in the OP report dated February 13, 2015. After consideration of the OP proposals, the Commission took action to set down the following options and alternatives for public comment, as summarized in the following table, with illustrations provided for reference. The specific text of the proposed amendment appears after the summary chart below.

As specifically detailed in the chart, the alternatives to the Zoning Regulations identify, among other things, the uses that may be allowed in penthouses, the height and other area limitations

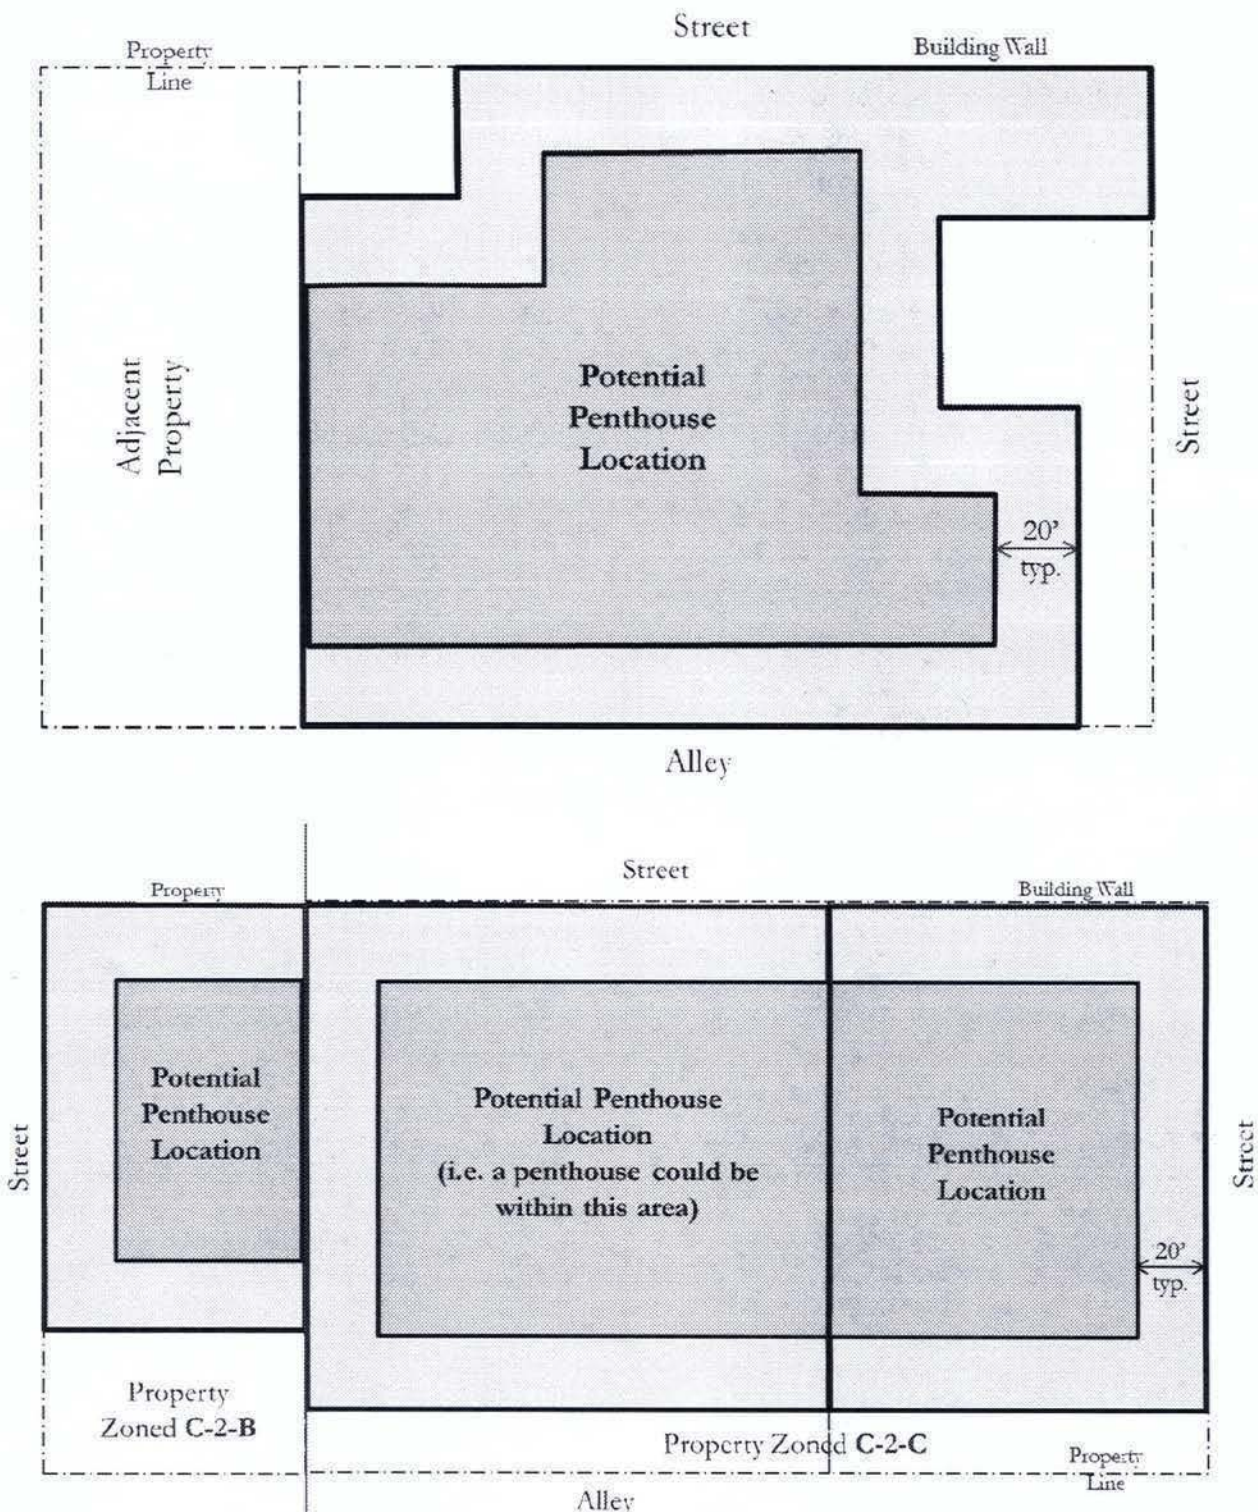

that apply to the structures, and the affordable housing requirements that are generated by either residential or non-residential uses.

Since the petition only sought changes to the text of the Zoning Regulations, and not the zoning map, the Commission's decision to hear the petition did not change the *status quo*. Any building permit application that has or will be filed during the pendency of this proceeding will be reviewed in accordance with the Zoning Regulations now in place unless or until amendments are adopted and become effective.

As is always the case, the Commission reserves the right not to adopt any or all of the text proposed and testimony arguing for the retention of the existing rules or alternative proposals will be received and considered.
