VI. OP ANALYSIS:

223 ZONING RELIEF FOR ADDITIONS TO ONE-FAMILY DWELLINGS OR FLATS (R-1) AND FOR NEW OR ENLARGED ACCESSORY STRUCTURES

223.1 An addition to a one-family dwelling or flat, in those Residence districts where a flat is permitted, or a new or enlarged accessory structure on the same lot as a one-family dwelling or flat, shall be permitted even though the addition or accessory structure does not comply with all of the requirements of §§ 401, 403, 404, 405, 406, and 2001.3 shall be permitted as a special exception if approved by the Board of Zoning Adjustment under § 3104, subject to the provisions of this section.

Single-family semi-detached dwellings are a permitted use in this zone. The Applicant requires special exception relief under § 223 from the requirements of § 403 (Lot Occupancy), § 404 (Rear Yard), and § 405 (Side Yard).

223.2 The addition or accessory structure shall not have a substantially adverse effect on the use or enjoyment of any abutting or adjacent dwelling or property, in particular:

- (a) The light and air available to neighboring properties shall not be unduly affected;*

The proposed addition would not seem to infringe on the property to the east, 3627 Everett Street, which would be separated by a six foot side yard. The proposed addition would not appear to compromise the light and air of the neighboring property to the west, 3601 Everett Street, which does not include

windows facing the Subject Property. The properties to the north are separated from the proposed addition by rear yards and the 16 foot alley.

- (b) *The privacy of use and enjoyment of neighboring properties shall not be unduly compromised;*

The privacy of use and enjoyment of neighboring properties should not be unduly compromised. The proposed addition would not seem to infringe on the property to the east, 3627 Everett Street, which would be separated by a six foot side yard. The neighboring property to the west, 3631 Everett Street NW, does not include windows facing the Subject Property. The proposed addition would not increase the height of the existing structure.

- (c) *The addition or accessory structure, together with the original building, as viewed from the street, alley, and other public way, shall not substantially visually intrude upon the character, scale and pattern of houses along the subject street frontage; and*

The proposed addition would be visible from Everett Street NW; however, the addition would not visually intrude upon the character, scale and pattern of houses along the street frontage and is designed to be in character with the existing house.

- (d) *In demonstrating compliance with paragraphs (a), (b) and (c) of this subsection, the applicant shall use graphical representations such as plans, photographs, or elevation and section drawings sufficient to represent the relationship of the proposed addition or accessory structure to adjacent buildings and views from public ways.*

The Applicant has provided graphical representations, including a site plan, building elevations, and photographs to demonstrate the relationship of the proposed addition to adjacent buildings and views from public ways.

- 223.3 *The lot occupancy of all new and existing structures on the lot shall not exceed fifty percent (50%) in the R-1 and R-2 Districts or seventy percent (70%) in the R-3, R-4, and R-5 Districts.*

The lot occupancy would be 50%, which is the same as the existing amount and the same as which is permitted by special exception in the R-1-B District.

- 223.4 *The Board may require special treatment in the way of design, screening, exterior or interior lighting, building materials, or other features for the protection of adjacent and nearby properties.*

The Office of Planning does not recommend special treatment for the proposed

addition in the way of design, screening, exterior or interior lighting, building materials, or other features for the protection of adjacent properties.

223.5 This section may not be used to permit the introduction or expansion of a nonconforming use as a special exception.

The proposed use would be a single-family dwelling, which is permitted in the R-1-B zone.
